MEMORANDUM

TO: School Nutrition Directors, Manager/Supervisors, and Coordinators

FROM: Nancy Rice, M.Ed., RDN, LD, SNS
State Director, School Nutrition Division

SUBJECT: Follow up of Memorandum SP17-2019

In an effort to fulfill all the notifications requirements outlined in Memorandum SP17-2019, Georgia’s Data is posted at: [http://snp.wpgadoe.org/units/rtau/community-eligibility-provision/cep-percentages/](http://snp.wpgadoe.org/units/rtau/community-eligibility-provision/cep-percentages/)

Two levels of data are required to complete the annual CEP notification process:

1. District-level eligibility data provided to LEAs by State agencies; and
2. School-level eligibility data provided to State agencies by LEAs. (Georgia’s data is collected by the state agency through the FRL 001 report and Determination Worksheets.)

Proxy data is used only to notify LEAs of possible eligibility; proxy data may not be used to calculate the identified student percentage (ISP) for eligibility or reimbursement purposes.

Georgia’s SY19 CEP systems/school’s information is posted along with Proxy CEP data for systems/schools eligible or near eligible to participate in CEP. Please review. If your district or school(s) are listed as eligible or near eligible and your district is interested in CEP as an option for the School Nutrition Program, please contact your Area Consultant.
